SHUTDOWN PROCEDURES

AUDIO VISUAL CONTROL SYSTEMS: STANDARD OPERATING PROCEDURE

There is no automated shutdown procedure programmed into the system. A typical shutdown prodedure would be the following.

If in MIXER MODE, Remenber to deactivate this mode.

MUTE all inputs on the touch panel

Power off devices when finished, such as the Projector, DVD and Blu-Ray

Pull all faders down on the mixer

Turn off all outputs and fader channels on the Audio Mixer.

Make sure the screen is retracted.

SCREEN DEPLOYMENT: The screen is deployed by a low voltage relay, there is no electronic feedback to inform the control system of the stage the projection screen is at. In order to use, you must fully deploy the screen and wait until the screen has finished it's full deployment and stopped before you select it to retract.
