ONLINE-TRAINING (INDEX.HTML)

Quick Access Links. (SITEMAP)

Welcome to ACS's Web-based training, also known as computer based training (CBT), distance learning, or e-learning.

ACS online training is a form of instruction that takes place completely on the internet. It involves a variety of multimedia elements, including graphics, audio, video, which all can be accessed through one's internet browser. These elements are used in lieu of traditional classroom components.

This training package describes how to use the control systems in Cleveland High School, Building L complex. In an easy to use and understandable format.

Please use the menu functions to the left, or the below quick access functions, designed to give you direct links to the area and training materials you may require, in an easy to follow matrix.

OVERVIEW

Typical Room Environment (typical.html) Graphical User Interface (gui.html) Control Interfaces (tptypes.html) Emergency & Safety (fls.html)
